WELCOME CATTLEMEN TO OUR 48TH ANNUAL PERFORMANCE BULL SALE!

Windmill Angus, still the place for top growth and feedlot performance, even though the world has changed at Windmill we have stayed the course. This last year has been a challenge with covid but once again our customers selling Windmill calves at the sale barns or online have kicked butt. I had many calls from excited ranchers telling me how they topped the markets and the strong demand from feedlots for Windmill sired cattle they know will grow and yield. Customers that feed their own steers have complimented Windmill Angus on the growth and yield grade also. I feel that with the lowest cow numbers since 1917 that the sky is the limit for top quality calves this summer and fall – be ready.

Windmill Angus is proud of the genetics we are offering this year from the big stout bulls to the incredible heifers. They are some of the best we have ever raised; big, stout, easy moving, great feet, and easy temperament. The registered heifers are some of the best straight out of our replacements with tons of style and growth. This year Windmill is again offering some older bulls and Registered heifers from Wilson Scotch Mountain, big bulls and fancy heifers raised high in the Montana mountains. We are sure you will be impressed with their style, docility, power, and ability to cover ground.

Please stop by anytime to look at this offering and good conversations. Windmill has stayed away from the fads in the Angus breed, we pay attention to feet and performance. We grow our bulls slower because we want them solid and sound. We create athletes, not corn-fed slobs and we use genetics that match our performance goals. Windmill does not raise fat bulls that lay at the windmill not getting their job done. We raise bulls that work, cover big country, and do not break down. Our bulls are trained with dogs, horses, four wheelers, and electric fence. I'm sure you will be pleased with this amazing offering of bulls and heifers and with over seventy years and three generations raising top quality Angus seedstock. You will see the difference.

Thank You again for 48 years of loyalty.
Alex Peterson & Joan Peterson – Windmill Angus Ranch

GUARANTEE TO BULL BUYERS

All bulls have been fertility tested. Two-year-old bulls have been trich and bvd tested, yearling bulls will be bvd tested. Highly fertile, sound, strong-footed bulls are necessary for a uniform calf crop. Plenty of really good bulls are probably the best investment a rancher can make.

Young herdsires need adequate nutrition to reach their potential. Proper care of a bull's physical and nutritional needs can add many years of vigorous service.

A rule of thumb: yearling bulls should breed 10-20 cows, two-year-old bulls should breed 20-30 cows and three-year-old and older should breed 25-35 cows.

Give them proper parasite control in early fall, supplement with enough grain and protein to place the young bulls in a weight gaining position before winter. These management practices will add to your satisfaction and profits.

VACCINATION PROGRAM FOR THE WINDMILL ANGUS RANCH CALVES

Spring Vaccination

- At birth calves are given Alpha 7.
- At branding time the calves are given Vista Once SQ and Vision w/ Somnus.
- At weaning we give Bovishield Gold 5 and Vision w/ Somnus.
- The bull calves were shot with a wart vaccine and boostered.

All bulls have been fertility checked, scrotal measured and tested for BVD and Trich (Yearling bulls do not need to be Trich tested). They are ready to go anywhere. The bulls have also been given two vaccinations for wart prevention. All cows and heifers have been dewormed and poured for lice. The heifer calves are all calfhood vaccinated.

INSURANCE

If you would like insurance on your bulls, we would be happy to help set it up.

Clay

Clint

FIRST YEAR BREEDING GUARANTEE

All bulls selling for $2,500 or more will be covered 50% by Windmill Angus Ranch if they are injured during their first breeding season and not able to return to service during the first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls.

50% of the value of the injured bull, minus one-half of the salvage value, will be given as credit in a future sale or toward a replacement bull if one is available. Salvage value, if any will be split equally between Windmill Angus Ranch and the buyer. All injured bulls must be diagnosed by the veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2022.

So, if any bull purchased for $2,500 sustains an injury, with veterinarian examination, buyer will be credited 50% of the purchase price, minus one-half any salvage value.

I found Windmill Angus by asking "where do the high selling steers' sires come from?" The Superior Sales Rep said, "Windmill Ranch." This is how I met Rich and Joan Peterson and then Alex. This past year the carcass data from Alex's steers were 69% Prime and no yield grade 4s, 1400#+ average.Alex's bull customers cut back heifers 61% Prime and no yield grade 4s. Checking data around the country all I can say is Alex has the best value in a bull I can find.

~Jeff Wilson
